Dear Parents

It has been a joy to welcome back the wonderful pupils and is fantastic to once again enjoy the gentle hum of activity and happy children learning. We really did miss you and it is great to see how quickly the children have settled back into school life. The next few weeks will be used to identify gaps in learning, getting the children to talk about their experiences and also to plan for the Summer Term.

The children have returned to Science Week and have been exploring and experimenting!

Kingfisher class started Science week by carrying out an experiment called lemon volcano.

Throughout the week, they have also been finding out about space which will help with the letters they are writing for a competition run by UKSED, in which the children have to apply for a job in the space industry.

Robin and Puffin class have been learning about the life cycle of a frog and we have our very own pond. We have observing what has been happening each day and seeing how the frog spawn is changing into tadpoles. So far, we have counted 30 tadpoles - although we may have counted the same one more than once as they keep moving! 😊 Watch out for further updates 😊

In Starling class, we have been learning about volcanoes and forces, we have talked about how pressure causes a volcano to erupt. We have made our own volcanoes and we will be creating a chemical reaction to make them explode.

A message to parents please. On the whole, you have been really great but please remember hands, face and space. It is easy to fall into old habits but we must all continue maintaining our distance and wear our face coverings. I would like to thank Mrs Knights for popping the markers on the pavement to remind us all, and to Miss Palmer for the cones which are helping everyone to use a better place to cross the road.

I am delighted that our PSCO, Bill Wood has been in contact and hopes he can visit us soon. Among other things, we would like him to look at road safety.

We have a polite and environmentally friendly plea. If you arrive early at school, either morning or afternoon, please do not sit with your engines running. Many of you have commented on the fumes and it is so unpleasant and presents a health hazard to everyone. Please switch off!

Breakfast Club: Please continue to book your child into breakfast club in advance. The children will go into the Hall with Mrs Ireson but will be socially distanced.

A reminder that Plymouth Argyle and music lessons are not due to recommence until after Easter. The children currently have weekly PE on Mondays for KS1 and Fridays for KS2 (but this will be Wednesday after the Easter break).

RED NOSE DAY

Red Nose Day Needs Your Superpowers!

The School Council have decided on a wonderful theme for this year's Red Nose day on Friday March 19th - it is 'Superheroes!' They would like to invite the children to come into school dressed as a superhero. This could be a real or imaginary superhero: a superhero character from a film or book, a made-up superhero you would like to create, someone who you consider to be a lockdown superhero, a sporting hero or a person who is a superhero to you. Also, if you do have a red nose, a red nose T-shirt or anything red at home you could wear that instead.

The school council have planned some exciting activities they would like to do next Friday to make it a Red Nose fun day. These include drawing pictures of superheroes, making up a superhero play, writing superhero stories, creating a superhero comic strip, doing a superhero quiz and watching superhero films. They would also like everyone to come to school ready to share their favourite joke.

Please could we ask you to make a donation to Comic Relief at home instead of bringing money into school. Further information about the amazing work and how to make a donation can be found at

<https://donation.comicrelief.com/>

Have a super weekend – and I hope the Mum's have a lovely day on Sunday!

Yours sincerely

Julia Murray

~~Friday~~
Wednesday 10th
March

Dear Sir/Madam,

I would like to apply for the job of Space Suit Designer. The reason why I would like this job is because I have a big interest in art and designing. I am also very fashionable.

Comfortable
confortable
In answer to your questions, I will make sure that I will test the suit and also make it thick and comfy. ~~Yes~~ I am very interested in making the space suits comfortable and fashionable for the people using them. I have also got a few design ideas for the space suits. I would really like you to know that,

I have my own telescope and it is very interesting to use and see the planets. I am always very curious about space, planets and stars.

~~Series~~ If I get the job, I would carry out a series of tests on the space suits to make all of the ~~astronauts~~ astronauts safe, comfortable and fashionable. If I get the job, I would also help the others around me.

This job would be perfect for me because I have my own pony ~~and~~ so I am strong, confident and brave.

(even though he is very cheeky and naughty)
~~If I do get it~~ I hope to see a reply from you soon.

Yours faithfully,
Amelia Dale.

10th March 2021

Dear Sir / Madam,

I am writing to you, to tell you I would like to apply for the job, a Climate Scientist, because I am very interested and concerned about the awful climate change and I am always interested in looking at the weather.

I love the brilliant, amazing sports football and surfing, which I think I would help me a lot, because I am a brilliant team player and I understand the dangers and ^{varies as the} ~~changing~~ sea levels ⁱⁿ the water, since I am surrounded by nature and the ocean. I love science and have even been to London's Science Museum!

I am very concerned about climate change and global warming, which I am trying to do all that I can to stop it. Curiously, I am always checking the weather and I am trying to find out what created the universe? Amazingly, I love the green, interesting nature and cute, ^(S)chubby animals. I love all cats, dogs and I sometimes go out-side and see if I can spot the big dipper e.t.c.

I am looking forward to your response, and if I get this job I would be helpful in every way.

Yours' Faithfully,

Louie C
